

Advancing to a Higher Level.

The Canadian Association of Management Consultants and the regional Institutes of Certified Management Consultants are proud to present the most recent graduates of the CMC (Certified Management Consultant) program.

The CMC designation is the management consulting professional's only internationally recognized credential. This achievement reflects each individual's deep, personal commitment to best practices and the highest of standards in management consulting.

Each year, a few CMCs are honoured with the title of Fellow. These individuals have been broadly recognized as being outstanding professionals within and beyond the confines of management consulting. Each has been singled out by a combination of peers, clients, colleagues and community members for their integrity, pioneering efforts, innovation and significant accomplishments and contributions to both their profession and their community.

The nominees elected by the Fellows Committee to be FCMCs truly set a standard worth aspiring to. Our profession is a better one because of them.

For more information about becoming a Certified Management Consultant, or about hiring a CMC for a management consulting assignment in your organization, please visit our website (www.CAMC.com) or contact consulting@camc.com
