Dr. John A. Estrella compiled his fourth book, Lessons Learned in Project Management: 140 Tips in 140 Words or Less, by collaborating with project management practitioners from Canada, the United States, South Africa, Poland, the United Kingdom, Argentina, the Cayman Islands, Australia, Brazil, India and other countries.

During his presentation, he will highlight some of his favourite practical project management tips such as discussing all constraints at the beginning of the project and mastering the art of delegation. You will discover the characteristics and learn how to stop a common phenomenon where stakeholders continue to escalate commitments to a failing course of action.

Are you familiar with the Chinese Army Approach? How much detail should you put into your plan? Have you ever wondered why you have two ears and one mouth? Attend Dr. Estrella's presentation and learn the secrets on how to become a better project manager.
